Knowledge, Interchange and Collaboration (KIC)

Scientific Events/ Travel Grants

2015 – First Call

Closing date: 3 April 2015
**CONTEXT**

In a globalised world, the internationalisation of research is imperative for the competitiveness of any country. While international collaboration has always been an intrinsic part of the research and innovation (R&I) endeavour, the forces of competitiveness and globalisation are accelerating the scope, pace and importance of cross-border R&I, strengthened by directed partnerships both within and outside of South Africa. Stakeholders around the world are working to internationalise their R&I efforts, driven by the need to establish a competitive reputation, to access global knowledge and expertise, and to mobilise new resources.

Striving towards an internationally competitive science, technology and innovation system is one of the strategic performance goals of the National Research Foundation’s (NRF) Vision. The essential purpose of this intervention is to build and maintain excellence in South African research, rather than to only facilitate international collaboration. The promotion of international collaboration through the support of travel opportunities and participation in scientific events, enriched by national learning opportunities and engagements, are important mechanisms towards this goal.

The Knowledge, Interchange and Collaboration (KIC) funding instrument was therefore established to contribute to the following objectives:

- internationalising South Africa’s research platform;
- enhancing networking within the global science system;
- fostering collaboration in order to improve the quality of research outputs by researchers.

Within the NRF funding context, internationalisation of research is an intrinsic part of the current funding framework, built into research grants awarded through programmes such as Competitive Funding for Rated Researchers, the South African Research Chairs Initiatives (SARChI), and the Centres of Excellence (CoE) initiative. **Therefore, funding for KIC support are prioritised for those researchers who have not already been allocated travel support through any other current NRF grant awards.**

**TYPES OF SUPPORT**

The investment in support for travel and participation in scientific events are focused in four categories:

- **Travel Grants for Individual Researchers**: The applicants in this category are the individual South Africa-based researchers (young or established researchers) travelling either locally or internationally. The funding requested will be to support local and international travel related to research activities such as presentations of keynote lectures or papers and/or posters at conferences, seminars, symposia, workshops, etc. Advanced PhD students can apply (through their supervisors), and be recognised as young researchers.
• **Visiting Foreign Researcher:** The applicants in this category are South Africa-based researchers requesting funding to host research leaders from abroad for a short period (up to three weeks) in South Africa in order to enrich local expertise in their field.

• **Africa Interaction:** The applicants in this category are South Africa-based researchers intending to visit universities or research organisations in African countries in order to build capacity and to promote future collaboration, and/or to strengthen existing collaborations.

• **Support for Local Scientific Events:** The applicants in this category are South Africa-based researchers requesting financial support to organise or host small scientific events.

**CATEGORY DETAILS**

**Travel Grants for Individual Researchers**

This investment area supports three categories:

• Advanced PhD students (at a minimum in the second year of research)
• Young and developing researchers (younger than 40 years), including Postdoctoral Research Fellows.
• Established researchers.

**Purpose**

The main purpose of this category is to support:

• Travel by researchers employed by qualifying institutions and advanced PhD students (supervisors to apply) registered in South Africa, to local conferences, workshops, etc.;
• Travel by researchers employed by qualifying institutions and advanced PhD students registered in South Africa to conferences, workshops, etc. abroad. **Please note that only Supervisors may apply on behalf of PhD students.**

**Criteria**

Applications meeting the following criteria will be prioritised:

• Illustrated value to be derived from participation in the event and the potential of new initiatives;
• Use networking to influence strategic direction in areas of national importance;
• The application must be accompanied by an official acceptance of an abstract, or confirmation of a presentation;
• The NRF will consider supporting visits to foreign institutions only if the events (conference and visit) are held concurrently, and in the same vicinity;
• Applications that do not have all required supporting documents by the time of submission will be disqualified and will not be taken up for evaluation by the NRF.
Visiting Foreign Researcher

*Purpose*
The main purpose of this category is to enable local researchers to invite foreign researchers to spend time in South Africa in order to enrich local expertise in their field, promote future collaboration and/or strengthen existing collaboration.

*Criteria*
- Visits by researchers with institutional and individual scientific relevance;
- The invited researcher must be a leader in their field of research;
- Illustrated value to be derived from the visit and the possibility of the start of new initiatives;
- Involvement of other South African scientists and engagement with more than one institution other than the host/applicant;
- It is obligatory that the invited researcher present a public lecture/seminar at the institution, or at a partner institution;
- A copy of the invitation to the visitor(s) and a copy of the provisional acceptance of the invitation from the visitor(s) must be included;
- Applications that do not have all required supporting documents by the time of submission will be disqualified and will not be taken up for evaluation by the NRF.

Africa Interaction

*Purpose*
The main purpose of this category is to enable researchers in South Africa to build capacity and to establish or strengthen academic collaboration with one or more partners based at universities or research institutions in Africa.

*Criteria*
- The applicant must be a leader in their field of research;
- The applicant must indicate how the funding will support collaboration with partners elsewhere in Africa at the level of research, teaching and learning, or capacity development;
- Copies of invitation(s) received from host(s) must be included;
- Applications that do not have all required supporting documents by the time of submission will be disqualified and will not be taken up for evaluation by the NRF.

Support for Local Scientific Events

*Purpose*
The main purpose of this category is to promote excellence in research through financial support for small international research events hosted in South Africa such as conferences and workshops. The word conference is used in its broadest sense and includes all types of scientific meetings including symposia, congresses, colloquia, and workshops.

*Criteria*
Applications meeting the following criteria will be prioritised:
- Events in this category applied for must have international involvement (plenary speaker[s] or international participation), must involve South African students, and have oral and/or poster presentations;
- The event proposal must clearly define the overall objectives and programme of activities;
- The event should be a platform aimed at creating new contacts in its area of expertise/discipline and may be connected to other networks;
- The event should offer the potential of establishing institutional cooperation in relevant areas;
- A copy of the invitation to the keynote speaker(s) and a copy of provisional acceptance of invitation from the keynote speaker(s) must be included;
- A student attendance register is required to be made available during the event according to the format as shown in the application form. This should include detailed information providing name, department, institution, study level and demographics;
- The funding will include costs for invited international keynote speaker’s(s’) air travel, publication of conference proceedings or abstract books;
- Applications that do not have all required supporting documents by the time of submission will be disqualified and will not be taken up for evaluation by the NRF.

Items such as registration fees, venue hire, audio-visual equipment hire, honoraria, student assistance, administration costs or refreshments will not qualify for consideration.

**WHO MAY APPLY**

Advanced PhD students (through their supervisors) registered at South African public universities, and all researchers who are full-time employees or on a fixed-term contract at any of the following institutions are eligible to apply:
- South African universities/universities of technology;
- Recognised national research institutions such as the national facilities;
- Museums;
- Science councils.

The applicants must be in possession of at least a Master’s degree. Advanced PhD students can only apply for travel grants for individuals. **Students and researchers from private/commercial institutions are not eligible to apply.** Student involvement in local events is highly encouraged.

**WHICH ACTIVITIES MAY I APPLY FOR?**

**PROCESSING AND DECISIONS**

In line with the NRF’s endeavour for a fair and objective granting process, all applications are subjected to the following:

- Applications will be considered for support for travel /events taking place between **1 May 2015 to 31 October 2015**;
- Only one event/activity per applicant will be supported with no exceptions;
- Applicants may not be supported for two consecutive calls;
- Applications need to be endorsed by the applicant’s Institutional Research Office. The application must be accompanied by a confirmation of the scheduled visit from the host organisation/institution/person being visited or an official acceptance of conference presentation/poster, whichever might be applicable;
- A panel consisting of external and internal reviewers will assess and select applications according to the stipulated criteria;
- **Mobility grant funding will be up to a maximum of ZAR50 000 and a maximum of ZAR100 000 for conference support**;
- **KIC awards will not cover all expenses requested, and co-investment from own/ other sources are essential. This should be clearly indicated in the application**;
- Given the competitive nature of the programme and budgetary limitations, funding is not guaranteed.

**APPLICATION PROCESS**

- Applications must be submitted through an online application process to the National Research Foundation (NRF): **KIC Call for 2015** [https://nrfsubmission.nrf.ac.za/](https://nrfsubmission.nrf.ac.za/)
- Register/Login using your ID number and password
- Select **create new application** from the list of existing calls
- Select the call for which you are applying for: **KIC Call for 2015**
- Remember to complete all sections of the application
- Please attach the necessary documents in **PDF format**
- Should you not follow the guidelines for attaching the necessary supporting documents, your application may not be considered
- Remember to **submit** your application on completion
- Complete applications will go to the host university for verification before being forwarded to the NRF for further processing
- Incomplete applications will not be considered
- Applications that do not meet the eligibility criteria will not be considered
- Please contact your Institutional Research Office if you have any queries
- All applications for KIC grants should be submitted by 3 April 2015. **No application will be accepted beyond this date**
- The NRF will not be held liable for server/IT problems experienced by any institution for non-submission of applications
- Applications submitted as hard copies or by email will not be accepted and will automatically be disqualified.

**Feedback to the applicants**

The granting process following the closing date of applications entails screening of all applications for eligibility, taking eligible applications to the review panel, announcing the outcomes, and awarding of grants. This process could take up to 6 weeks from the call closing date.

Feedback will be communicated to all the institutions’ Designated Authorities in the form of a list/spreadsheet of all successful and unsuccessful applicants per institution. During this time, feedback letters are prepared by Grants Management and Systems Administration (GMSA).

**Acceptance of Grant Conditions (AoC)**

An appropriate hard copy of the AoC will accompany each formal letter of award. This should be signed by both the grant holder and the Designated Authority at the institution. The AoC should be returned to the NRF within 30 days of receipt. Failure to comply may result in the NRF cancelling the award. Funding can only be disbursed once the signed AoC have been received.

**Reporting and Payments**

- NRF support should be acknowledged in all publications (including World Wide Web pages) and presentations (oral or poster). Use of the NRF logo should be according to the branding policies of the organisation (contact Mr Thabiso Nkone at thabiso.nkone@nrf.ac.za for further details).
- A student attendance register is required to be made available during the event according to the format as shown in the call guide. This should include detailed information providing name, department, institution, study level and demographics.
Each event should be reported on no later than 30 days after the event, using the prescribed KIC template available from kicgrants@nrf.ac.za.

Applicants who have not submitted previous conference reports to the NRF will not be considered for future funding.

Grant payments will be made directly to the institution of the applicant.
