## INTRODUCTION

### INTRODUCTION TO THE NRF

The National Research Foundation Act as amended, Act 19 of 2018, establishes the National Research Foundation (“NRF”) as the juristic legal entity that will contract with the awarded bidder. Please visit the NRF website (<https://www.nrf.ac.za>) for more information.

### BACKGROUND TO SAEON

The South African Environmental Observation Network (SAEON) is a business unit of the National Research Foundation (NRF) mandated with Long Term Environmental Observation to detect and understand the impacts of Global Change in South Africa.

Seven SAEON nodes are strategically situated across geographic regions representing the country’s major biomes.

SAEON coordinates an array of multi-disciplinary observation platforms and research programs that are designed to monitor and understand Earth system dynamics and human induced changes to these over multiple scales. These initiatives are currently being advanced through the development of a coordinated sophisticated instrument network that must contribute quality, long-term environmental data for research that will ultimately guide evidence-based policy and decision-making.

SAEON is committed to scientific excellence. Further information about SAEON can be found on [www.saeon.ac.za](http://www.saeon.ac.za)

### THE NEED FOR THIS PROCUREMENT WITHIN SAEON

The SAEON Elwandle Coastal Node is mandated to undertake long-term monitoring and research on South Africa’s coastal zone. SAEON conducts long-term monitoring of temperature, salinity and water quality at a number of estuaries along the South African coastline.

Sampling involves high-resolution physical and chemical profiling up the length of each estuary and variation in vertical and horizontal water profile are studied in detail. SAEON Elwandle Node samples episodic events such as floods, storm surges, pollution, plankton blooms among other episodic events. Physical and chemical variables monitored include temperature, salinity, oxygen, pH, turbidity and light attenuation.

## THE BID PREPARATION

### Clarification

If the respondent wishes to clarify aspects of this request or the acquisition process, they write to the contact officials listed under the enquiries section above. The NRF distributes the response to a clarification request to all respondents that have communicated their intention to bid (i.e. briefing session attendance register) within 2 working days of receipt of the query. The NRF does not provide the origin of the request to any party.

### Response preparation costs

The NRF is not liable for any costs incurred by a bidder in the process of responding to this invitation, including on-site presentations.

### Counter proposals

No counter proposals are accepted.

### Two envelope system

The NRF, in the interests of transparent procurement, utilises the two-envelope system to minimise any form of price bias in the technical selection phase. All responses must be submitted in two sealed envelopes/boxes; the first envelop/box shall have the technical, compliance and BBEE response and the second envelop/box shall only have the financial response. Bidders must ensure that they do not indicate any financial information in the first envelop/box.

Bidders are required to package their response/Bid as follows:

- Envelope 1: Bid Forms, Technical Response, Compliance Responses, and substantiation documentation
- Envelope 2: Financial quote in the SBD 3.2 format as set out in this document

### Central Supplier Database registration

The NRF is legislatively only allowed to contract with third parties registered on the National Treasury's Central Supplier Database. Third parties include their Master Registration Number (Supplier Number) for evaluation purposes. The NRF utilises the third parties' Master Registration Number conduct due diligence through the Central Supplier Database as part of the due diligence pre-award process inclusive of tax compliance verification.

### Collusion, fraud and corruption

Any effort by the bidder to influence evaluation, comparisons, or award decisions in any manner will result in the rejection and disqualification of the bidder concerned.

### Fronting

The NRF supports the Government's broad based black economic empowerment recognising that real empowerment is through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent, and legally compliant manner. Against this background, the NRF condemns any form of fronting. The NRF's evaluation committees conduct or initiate the enquiries/investigations to determine the accuracy of the third parties representations. The third parties have the onus of proving that fronting does not exist. Where the NRF identifies a potential breach may exist, the NRF notifies the third parties of the allegation. The third parties have a period of 7 days from date of notification to provide evidence that such potential breach does not exist. The NRF, upon confirmation of fronting, will invalidate the contract, apply for the third parties to be restricted from conducting business with the public sector for a period not exceeding 10 years, and exercise any other remedies the NRF may have against the concerned third party.

### Disclaimers

The NRF has produced this document in good faith. The NRF, its agents, and its employees and associates do not warrant its accuracy or completeness; make no representation, warranty, assurance, guarantee or endorsements to any third parties concerning the document. ## **THE BIDDER SELECTION PROCESS**

**Stage 1 – Verification of the ability of a bidder to provide the services in accordance with specifications and conditions as set out in the bid documents.**

### Responsive to submission requirements

A Bid that meets all the submission requirements in the bid document is a responsive bid that proceeds to the next stage. The NRF’s evaluation committee will disqualify non-responsive submissions.

### Meeting technical specifications

The NRF's evaluation committee will disqualify responsive submissions that do not meet the minimum technical specifications set out in this document.

The bidder will be disqualified as they did not meet the minimum technical specifications.

### Due Diligence Research

NRF will conduct due diligence on a bidder by contacting the references submitted to verify the bidder's capability to provide the goods/services required.

### **Stage 2 – Price competition**

The NRF's evaluation committee assesses compliant bidders from the technical evaluation stage on their pricing and BBBEE accreditation. The NRF's evaluation committee compares each bidder's pricing quote on an equal and fair comparison basis equitable to all bidders, taking into account all aspects of the bid's pricing requirements. The NRF's evaluation committee ranks the qualifying bids on points scored on the basis of both Price and specific goals as indicated on SBD 6.1 in accordance with the PPPFA.

### **Stage 3 – Award and Contract Signing**

The bid evaluation committee recommends to the Bid Adjudication Committee for subsequent approval by the Delegated Authority the bidder with the highest combined score for the contract award subject to the final verification of the bidder's tax status as set out in the SBD 1 through the CSD.

### **Cancellation of the bid prior to award**

- b) No bids meet the minimum required specification, or a material irregularity occurred in the bid process, or
- c) Where the price is too low/high in comparison to the pre-bid defined market price range with no bidder prepared to negotiate the price into the determined market price range.

## 2. GUIDELINES

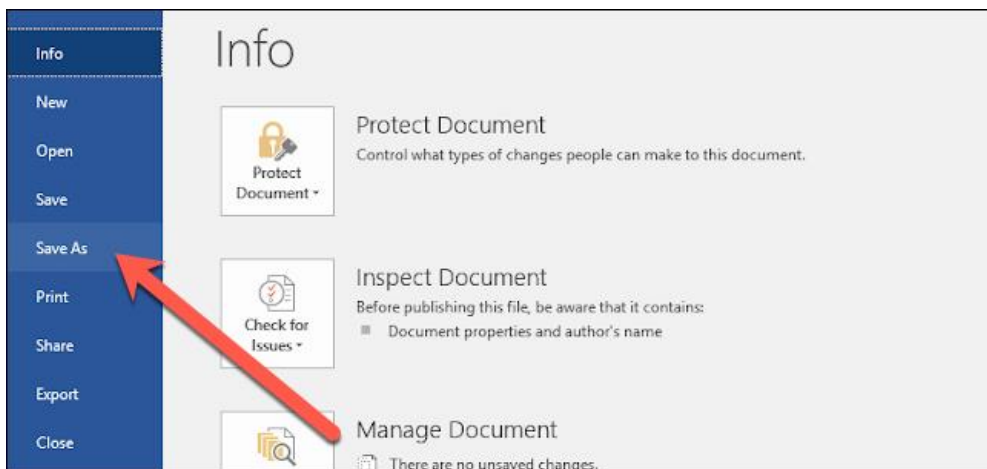

### Converting to pdf

- If you have the desktop version of Microsoft Word, the easiest way to convert your document to PDF is right in Word itself.
- Open the document you want to convert, and then click the "File" tab.

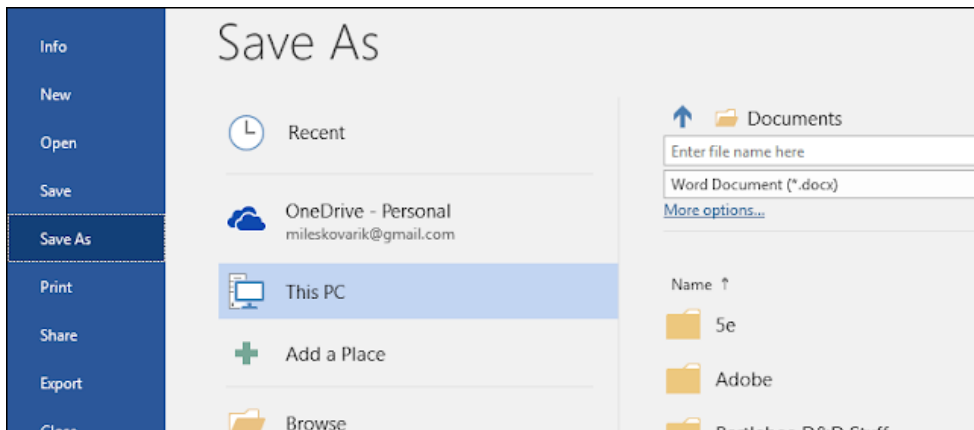

<sup>3</sup> SANS 10845-1 paragraph 4.7

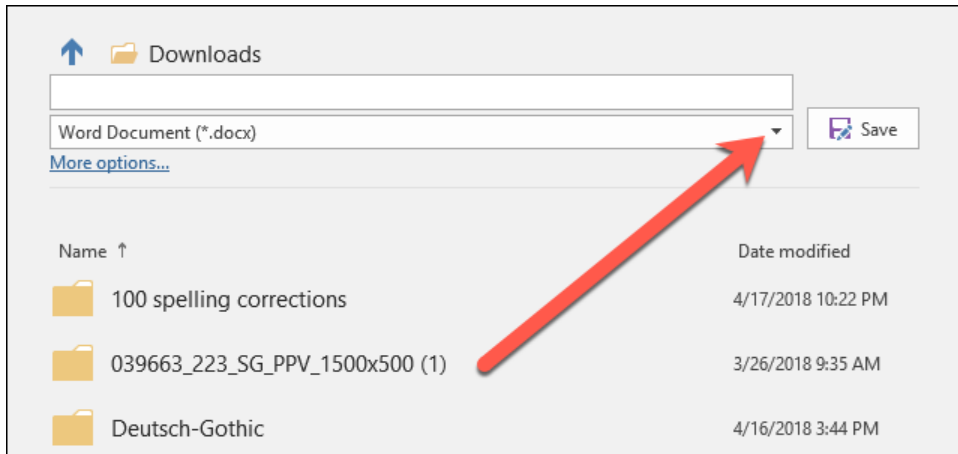

- On the backstage screen, select “Save As” from the list on the left.

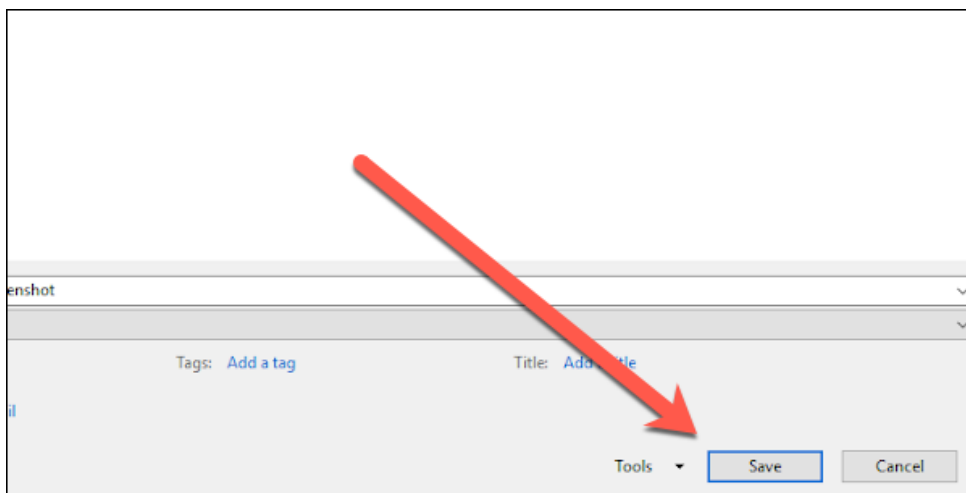

- On the Save As screen, select where you would like the PDF to be saved (OneDrive, This PC, a particular folder, or wherever).

- Next, click the dropdown arrow on the right side of the “Save as type” box, and select “PDF (\*.pdf)” from the dropdown menu.

- If you want to, you can change the filename at this time. When you're ready, click the "Save" button.

- After saving the PDF, you'll be returned to your Word document, and the new PDF will open automatically in your default PDF viewer.

## Password protecting files

- To password protect an Office document, first open it in Word, Excel, PowerPoint, or Access. Click the "File" menu at the top-left corner of the screen. On the Info pane, click the "Protect Document" button and select "Encrypt with Password."
- The button is only named "Protect Document" in Microsoft Word, but it's named something similar in other apps. Look for "Protect Workbook" in Microsoft Excel and "Protect Presentation" in Microsoft PowerPoint. In Microsoft Access, you'll just see an "Encrypt with Password" button on the Info tab. The steps will otherwise work the same.
- NOTE: If you only want to restrict editing of the document, you can choose "Restrict Editing" here, but as we said, that is not very secure and can easily be bypassed. You're better off encrypting the entire document, if you can.

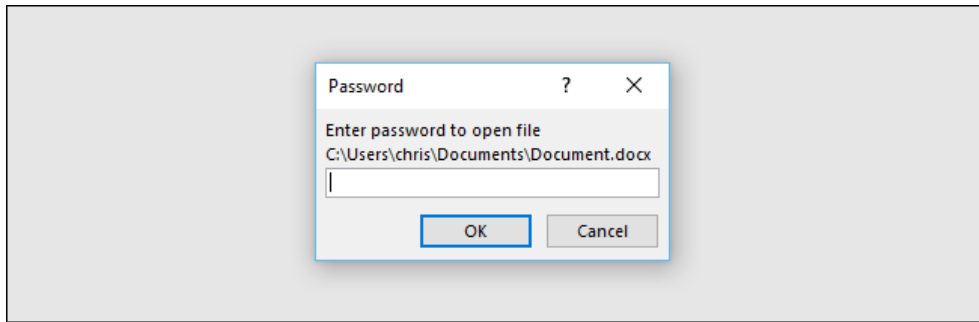

- Enter the password you want to encrypt the document with. You'll want to choose a good password here. Weak passwords can be easily guessed by cracking software if someone gains access to the document.
- **Warning:** You'll lose access to the document if you ever forget your password, so keep it safe! Microsoft advises you write down the name of the document and its password and keep it in a safe place.

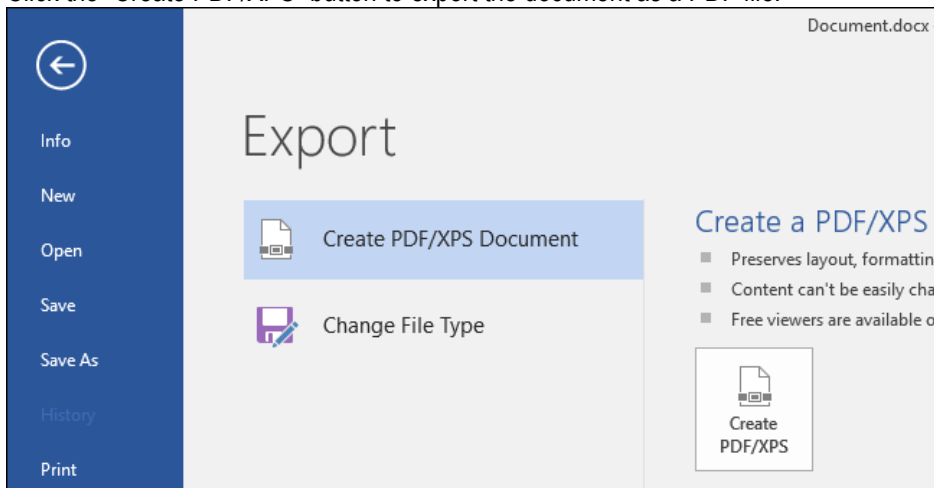

- When a document is encrypted, you'll see the "A password is required to open this document" message on the Info screen.
  - The next time you open the document, you'll see an "Enter password to open file" box. If you don't enter the correct password, you won't be able to view the document at all.

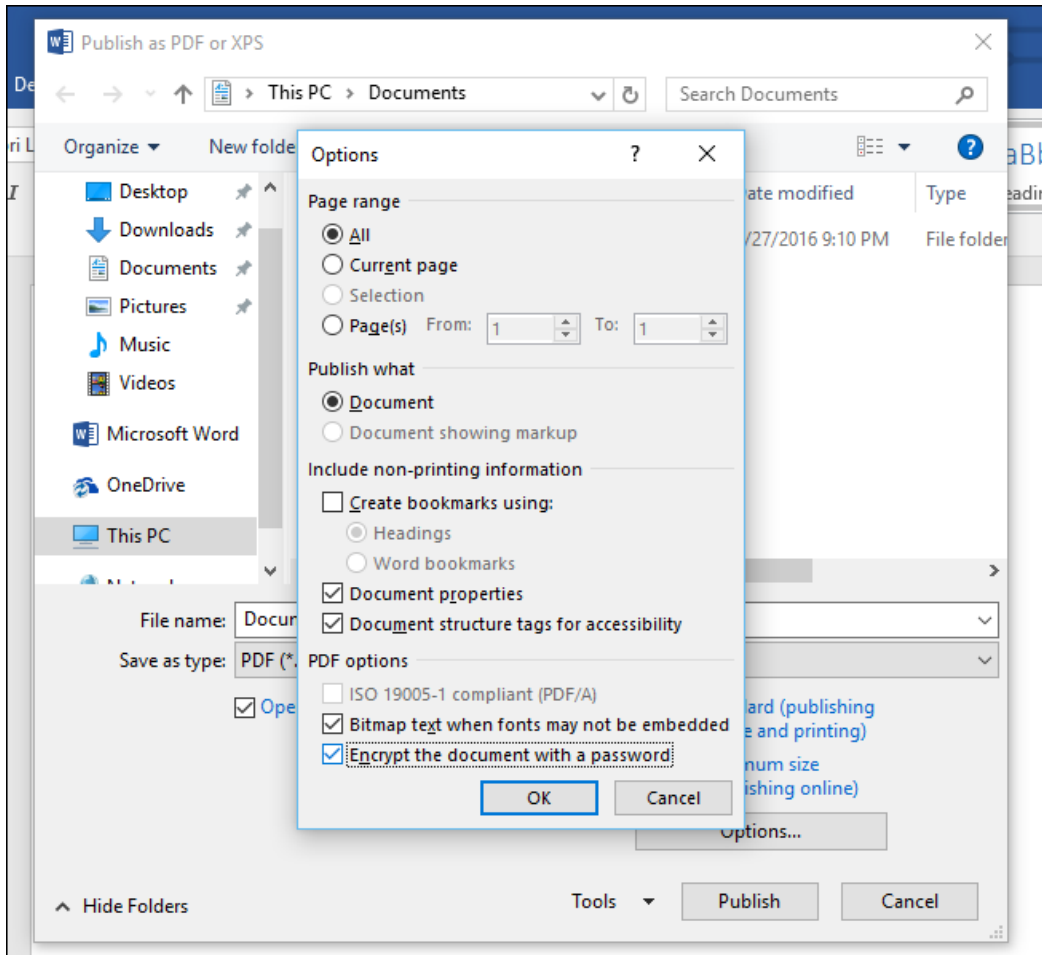

- To remove the password protection from a document, click the “Protect Document” button and select “Encrypt with Password” again. Enter a blank password and click “OK.” Office will remove the password from the document.

### How to Create a Password Protected PDF File

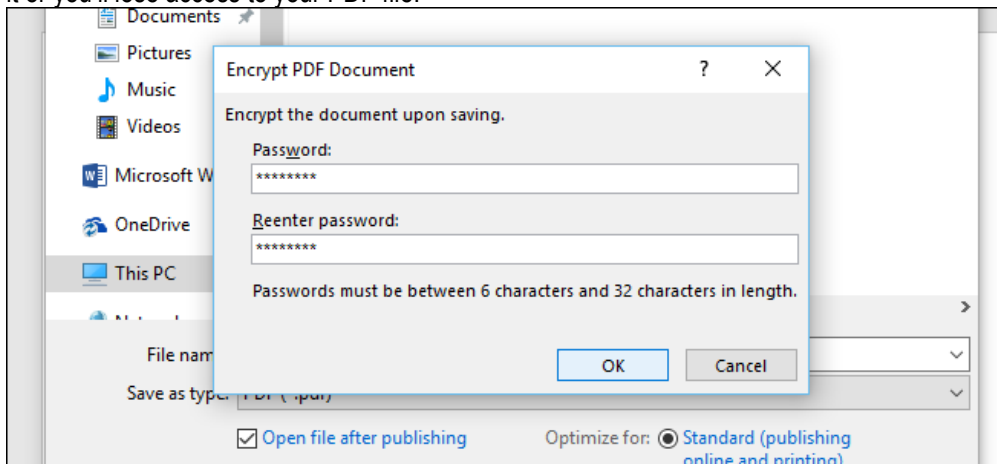

- You can also export an Office document to a PDF file and password protect that PDF file. The PDF document will be encrypted with the password you provide. This works in Microsoft Word but not Excel, for some reason.
- To do this, open the document in Microsoft Word, click the “File” menu button, and select “Export.” Click the “Create PDF/XPS” button to export the document as a PDF file.

- Click the “Options” button at the bottom of the save dialog window that appears. At the bottom of the options window, enable the “Encrypt the document with a password” option and click “OK.”

- Enter the password you want to encrypt the PDF file with and then click “OK.”
- When you’re done, enter a name for the PDF file and click the “Publish” button. Office will export the document to a password-protected PDF file.
- **Warning:** You won’t be able to view the PDF file if you forget the password. Be sure to keep track of it or you’ll lose access to your PDF file.

- You’ll have to enter the PDF file’s password when you open it. For example, if you open the PDF file in Microsoft Edge–Windows 10’s default PDF viewer–you’ll be asked to enter the password before you can view it. This also works in other PDF readers.

### **Zipping your files.**

- Put all the files into a new folder
- Right-click on the folder to be sent
- Select "Send To" and then click "Compressed (Zipped) folder"
- The files will start compressing
- After the compression process is complete, attach the compressed file with the extension .zip to your email.

### **Keeping passwords safe.**

We recommend that you store the password either as a note on a hardcopy document which is then filed or stored safely or a softcopy that is saved in the bid response folder once the bid has been submitted or in line with your document management policy.
