THE NEED FOR THIS PROCUREMENT WITHIN NRF

The NRF seeks a board portal software solution to provide a central, secure platform for board documentation and meeting materials, with real-time collaboration capabilities. The system must support efficient distribution of board packs, offer notifications for updates and e-signature requests, and enable both online and offline access. It must also enhance governance processes through advanced security features such as access controls, user tracking, and watermarking. This procurement will further strengthen board governance and ensure sensitive information is managed effectively and securely.

Fronting

The NRF supports the Government's broad based black economic empowerment recognising that real empowerment is through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent, and legally compliant manner. Against this background, the NRF condemns any form of fronting. The NRF's evaluation committees conduct or initiate the enquiries/investigations to determine the accuracy of the third parties' representations. The third parties have the onus of proving that fronting does not exist. Where the NRF identifies a potential breach may exist, the NRF notifies the third parties of the allegation. The third parties have a period of 7 days from date of notification to provide evidence that such potential breach does not exist. The NRF, upon confirmation of fronting, will invalidate the contract, apply for the third parties to be restricted from conducting business with the public sector for a period not exceeding 10 years, and exercise any other remedies the NRF may have against the concerned third party.
